

# **BUILDING A FAMILY**

## **THE MODERN WAY.**

**MUNDAYS.**

Making the law work for you.

Advances in fertility treatment and the growth of the modern family now mean that those who once could not have a family can now, at the very least, consider it a possibility.

Mundays has one of the largest and most established Family Law teams in the South East of England and we are proud to offer specialist advice to those considering fertility treatment, including the use of sperm and egg donors. We are also able to advise on surrogacy law.

**Mundays recognise that going through fertility treatment can be a sensitive and emotionally difficult time. We offer support from preconception to beyond birth.**

---

## **OUR OBJECTIVES ARE TO ENSURE:**

- That everyone involved is aware of the legal implications of their chosen fertility journey.
- It is clear, from the beginning, who is to have responsibility for the child and a say in his or her upbringing and who is to have legal status in the child's life.

---

Having a family is an exciting time and there is a lot of preparation involved, even before fertility treatment starts. It is important that taking early legal advice (before conception) forms part of those preparations.

“

Your advice was extremely valuable and helpful.

”

MRS K

“

They clearly have great expertise, but also empathy and patience in dealing with difficult cases.

”
